OUR OTHER PRODUCTS

Quality Assurance builds quality into each step of the manufacturing process including designing, production, and beyond.

We understand the **Value of Quality** & **Cost of Defects**, so we **monitor & control** our complete **Value Chain System** to ensure **conformity** towards **required standards** & avoid mistakes.

Our QUALITY motto is **3Z** - Zero Defect, Zero Delay & Zero Complain; thus set our production process accordingly.

We ensure **QUALITY** in our –

- **Management Systems**
- **Production Process**
- **Garments &**
- **Supply Chain**

Quality Assurance

We follow ISO in our Management Systems & apply **LEAN** Production Methodology. We are in process of setting up **Six Sigma** methodology & **TQM** (Total Quality Management) in our shop floors.

Our Quality SOP starts at the beginning of our supply chain & all the SOPs comply with Zero Tolerance to Defects.

To the extent possible, we apply 'Poka Yoke' – a mechanism in LEAM Manufacturing Process that helps an operator to avoid mistakes.

Following are the list of SOPs maintained at our factory-

1. FabricsinspectionSOP
2. Shadebandprocedure
3. Fabricsprocessbeforecutting
4. TrimandaccessoriesinspectionSOP
5. GarmentspatternmakingSOP
6. Fabricsrelaxation,spreading&cuttingprocedureSOP
7. Sewingqualityprocedure
8. GarmentsmeasurementSOP
9. NeedlecontrollingSOP
10. Sharp edge controlling SOP
11. Button pull test SOP
12. Button pinch setting SOP
13. Metal detection SOP
14. Mold prevention SOP
15. Finishing SOP
16. Quality control manual or SOP

Generally Pre-production, Production & Shipment samples are laboratory tested (at accredited labs. e.g. Intertek, SGS, Bureau Veritas, TUV, UL etc) to make sure our goods comply required international standards.

- **Dimensional Tests** (e.g. Dimensional Stability to Washing, Print Durability, Spirality, Twisting etc)
- **Colour Fastness Tests** (e.g. CF to Washing, Rubbing, Perspiration, Light, Dry Cleaning, Water, Bleaching, Sea Water, Pool Water etc)

- **Mechanical /Physical Tests** (e.g. Tear Strength, Seam Strength, Bursting Strength, Pilling Resistance, Abrasion Resistance, Tensile Strength etc).
- **Chemical & Analytical Tests** (e.g. Forbidden Azo, PVC, Disperse Dyes (Allergenic & Carcinogenic Dyes), PVC, Toxic Heavy Metals, COC, Nickel, pH, Formaldehyde etc)

Quality is a relative term. It means customer needs is to be satisfied. Quality is of prime importance in any aspect of business. Customers demand and expect value for money. As producers of apparel there must be a constant endeavor to produce work of good quality.

Quality Check procedures in following Sections-

- Sampling
- Marker Making
- Fabric Spreading
- Cutting
- Sewing

- Maintaining buyer Specification standard
- Checking the sample and its different issues
- Measurements checking

- Fabric color, GSM, Fastness etc properties required checking
- SPI and other parameter checking
- Laboratory Testing

To check notch or drill mark

Fabric width must be higher than marker
width
Fabric

length must be higher than
marker length

Matching of green line

Check pattern size and dimension

Matching of check and stripe taking into
consideration

- Considering garments production plan
- Cutting table length consideration
- Pattern direction consideration.

- Fabric spreading according to correct alignment with marker length and width
- Maintain requirements of spreading
- Matching of check and stripe
- Lay contains correct number of fabric ply
- Correct Ply direction
- To control the fabric splicing
- Tensioncontrol

- The dimension of the pattern and the cut piece should be same and accurate
- Cut edge should be smooth and clean
- Notch should be cut finely
- Drill hole should be made at proper place
- No yarn fraying should occur at cut edge
- Avoid blade deflection
- Maintain cutting angle
- More skilled operator using

- Proper inspection of the garments including measurement, spot, dirt, impurities
- Water spot
- Shading variation check
- Smooth and unfold in pocket
- In secured or broken chain or button
- Wrong fold
- Proper shape in garments
- Properly dried in after pressing
- Wanted wrinkle or fold in lining
- Get up checking
- Collar closing
- Side seam
- Sleeve placket attachment
- Cuff attachment
- Bottom hem
- Back yoke
- Every parts of a body

Before or Pre-production Inspection: The following parameters & defects are checked prior to cutting -

- ShadeMatching
- FabricConstruction
- GSM
- Whales&coursesifrequired)
- Diameter DyeingLevelness
- Ecologicalparametersifrequired
- Softness
- Shrinkage
- MatchingofRib,Collars&Cuffs
- FabricHoles
- Vertical&HorizontalStripes
- Knittingdefectssuchasmissing loops, sinker lines, etc.
- Bowing
- Skewing
- Yarndefectssuchasthick&thin places
- Dirt&Stains

During Production Inspection -

- Verify cutting patterns
- Cut components measurements
- Cutting shapes
- Fabric defects
- Other specific parameters as required by the customers Rib, Collars & Cuffs matching
- Stitching defects
- Sewing threads matching
- Dirt & Stains
- Measurements
- Labels
- Trims & Accessories

Final Inspection:

PACKING & ASSORTMENT:

- WrongModel WrongQuantity
- Missing labels & tags
- Wrong Size & Colour assortment
- WrongFolding
-

FABRIC DEFECTS:

- WrongShade
- Unevendyeing
- Holes
- Knittingstripes
- Thick & Thin places

- Dirt&Stains
- Oilstains
- Sinkerline
- Poorsoftness
- HigherShrinkage
- CreaseMarks

WORKMANSHIP DEFECTS:

- Openseam
- Puckering
- Needle holes & marks
- Unbalanced sleeve edge
- Unbalanced placket
- Insecure shoulder stitch

- Incorrect side shape
- Bottom hem bowing
- Uneven neck shape
- Cross labels
- Broken & Missing stitch
- Insecure buttons
- Untrimmed threads & fabrics
- Poor Ironing
- Double stitch

GENERAL DEFECTS:

- Shadevariationwithinthegarmentparts
- Shadevariationbetweenthegarments
- Defectiveprinting
- Defectiveembroidery
- Defectivebuttons

MEASUREMENT DEVIATIONS :

- Garment length
- Body width
- Shoulder length
- Arm hole Arm
- Opening Sleeve
- length Placket
- length Placket
- width
- Neck width
- Neck opening
- Hemming width
- IRib or Collar width

WORKPLACE SAFETY

Safety is always the top most Priority at **Fashion Tex Int**
We consider Safety in two aspects –

Workplace & Product.

Workplace Safety: Importance of creating safe and healthy work environment is utmost important. A serious workplace injury or death changes lives forever. Health and safety is the key factor for all the industries in order to promote the wellness of both employees and employers. It is a duty and moral responsibility of the company to look after the employee's protection.

At **Fashion Tex** we understand the importance of the issue, so we ensure **Workplace Safety** in following major areas –

- **Building & Structural Safety**
- **Fire Safety**
- **Health Safety**
- **Electrical Safety**
- **Instrumental Hazard related Safety**
- **Ambient Air Quality & Environmental Safety**

Product Safety: It is the liability of the manufactures to ensure that the garments they manufacture are SAFE for its consumers. This is done during a number of phases including designing, raw material sourcing, process layout, manufacturing & advertising.

Unlike the nutrition facts on the back of our favorite foods, clothing doesn't come with a conveniently itemized list of ingredients. Instead as many as 2,000 different chemicals are used in the textile industry, from dyes to transfer agents in fashion manufacturing...

...many of which contain known carcinogens and
hormonedisruptors

are kept undisclosed and hiding within the fibers of the industry's most sought out styles.

By being more aware of what we are putting on
our bodies, we can reduce exposure to
unhealthy compounds.

Unsafe Garment can cause **serious and often life threatening injuries**. This can include but not limited to -

- Skin Rashes
- Skin Cancer
- Choking Injuries
- Environmental Hazards
- Other Long Term Diseases

At Fashion Tex we realize **importance of Product Safety**, so we monitor & control following major areas –

- RawMaterialSourcing
- Dying & Chemicals
- Washing & Chemicals
- Chemical & Analytical Testing at Accredited Labs

At Fashion Tex International, we deliver quality, reliability, and value. With certified factories and a client-focused approach, we ensure every order meets global standards.

1. Trusted Network of Factories

We collaborate with carefully vetted and compliant manufacturers across Myanmar, ensuring consistent quality and ethical production.

2. End-to-End Sourcing Solutions

From product development to final shipment, we manage the entire supply chain with precision, transparency, and professionalism.

3. Commitment to Quality

Every order goes through strict quality control at each stage of production, ensuring our clients receive products that meet international standards.

4. Transparent & Timely Communication

We keep our clients informed at every step, reducing uncertainties and building long-term trust.

5. Ethical and Sustainable Approach

We prioritize fair labor practices, responsible sourcing, and eco-conscious production methods.

6. Experienced Team

Our skilled professionals bring in-depth industry knowledge and local insight to help clients navigate the Myanmar garment market with confidence.

Partnering with Fashion Tex International means peace of mind, dependable service, and consistent quality—every time
